

Retention Fees for Calls from OTE Fixed Numbers to Other Fixed Networks

On November 15th 2006, EETT, with a relevant Decision, set the fees that OTE should collect for calls made to other fixed networks based on the interconnection conditions between the networks.

In particular:

- A. For calls to non-geographic numbers of the series 801 of other networks as well as for calls (excluding free of charge calls) to short codes of other networks of the series 10, 11 (excluding short codes starting with 118), 12, 13, 15 and 18 of the National Numbering Plan, the said fee is set as follows:
 - > 1.18€ cents/minute for calls delivered from OTE to the alternative operator's network at local level.
 - > 1.43€ cents/minute for calls delivered from OTE to the

alternative operator's network at single tandem level.

- > 1.64€ cents/minute for calls delivered from OTE to the alternative operator's network at double tandem level.
- B. For calls to geographic numbers of other fixed networks the said fee is set as follows:
 - > 1.88€ cent/minute for local calls.
 - > 3.43€ cent/minute for long-distance calls.

The alternative providers must respectively define termination rates for their network, according to

applicable price control obligations so that the retail price for calls made by an OTE subscriber to other fixed networks would be the sum of the following separate charges:

- > Termination rate.
- > Retention fee.

It is important to note that the retail price for calls made by an OTE subscriber to 801 series numbers of an alternative provider should not exceed the charge of a local call from OTE's network to the network of the particular alternative provider.
