

Public Consultation on the identification of the Network Termination Point (NTP) for fixed service

The National Telecommunications and Post Commission is launching a public consultation on the identification of the Network Termination Point (NTP) for fixed service. The consultation document is available through the following link:

[Public Consultation on the identification of the Network Termination Point \(NTP\) for fixed service. \(in greek\)](#)

The National Telecommunications and Post Commission is seeking the views and comments of all interested parties, end-users, telecommunications equipment manufacturers, the electronic communications networks operators and related forums and organisations. The consultation period is from 13/04/2022 to 17/6/2022. The responses should be submitted stating the author's details and affiliation, in Greek or English language, in electronic format, no later than 17/6/2022. Anonymous responses will not be taken into consideration. The responses will be published unedited. In case the responses contain confidential information, this should be placed in a special Annex, so that they will not be published.

The responses to the public consultation should be marked as follows:

«Public Consultation on the identification of the Network Termination Point (NTP) for fixed service».

Responses should be submitted at the following address:

Email: ntp@eett.gr

During the public consultation process, explanatory answers will be provided by EETT in response to interested parties' questions. These questions should be submitted only through the electronic mail address ntp@eett.gr and should include the author's details and affiliation.

The public consultation document is not binding on the forthcoming EETT regulatory actions on this matter.
