

Open data

EETT updates ([EETT Decision 1058/044/19-12-2022](#)) the sets of documents, information and data it holds, once a change occurs, and in any case on an annual basis. The relevant EETT decision lists the sets of documents, information and data which:

- are held by EETT and fulfil its public tasks
- are available in an open and machine-readable format, applying the principle of the open availability of public information. Please note that EETT provides the above datasets without imposing any conditions on their re-use by licensing or charging fees
- are subject to the restrictions placed by the relevant legislation and are not available for re-use.
