**Subject:** Contribution to Public Consultation on Spectrum Management System (2)

Dear Sirs

On behalf of Nordicity Inc. of Ottawa Canada we here by submit the following questions:

**Questions**

Q1:Re: section 3.5 Functional Modules of the Technical Document

*Does the scope of the Spectrum Management system include separate software modules for monitoring, licensing, fee management, planning and electronic application submission as well as an overall integrated management module?*

Q2: Re: section 3.5 Functional Modules of the Technical Document

*Does the scope of the spectrum management system include provision for dynamic spectrum allocation?*

Q3: Re. 3.6.2

*Is the training activity limited to the Spectrum Management System and the Electronic Procurement System?*

**Subject:** Contribution to Public Consultation for Spectrum Management

Dear Sirs

On behalf of Nordicity Inc of Ottawa Canada we hereby submit the following suggestions

### **Suggestions**

Re. 3.4.2 Open Systems

*Provision be made by EETT to ensure the following:*

- 1. Interoperability of software modules for future upgrades*
- 2. Scalability of software to meet increased demands of users & number of users*
- 3. Upgrades to the software be provided to EETT at no cost by the contractor for a period of 3 years*

For any further information please contact the undersigned.
