

Maroussi, 29.4.2024

REF: 1110/6

DECISION

**Amendment and codification of the Management and Assignment Regulation
Domain Names ending in .gr or .ελ"**

The Hellenic Telecommunications and Post Commission (EETT)

Taking into consideration:

- a. Law 4727/2020 "Digital Governance (Transposition into Greek Law of Directive (EU) 2016/2102 and Directive (EU) 2019/1024) – Electronic Communications (Transposition into Greek Law of Directive (EU) 2018/1972) and other provisions" (Government Gazette, Series I, No 184), in particular article 131
- b. Law 4070/2012 "Regulation of Electronic Communications, Transport, Public Works and other provisions" (Government Gazette 82/A/2012) and in particular items (xxiv) and (xxxix) of Article 12 thereof;
- c. EETT Decision no. 1062/5/24-1-2023 "Regulation on Public Consultation Procedure" (Government Gazette, Series II, No 947);
- d. the EETT's decision No 843/2/1-3-18 "Regulation on the Management and Assignment of Domain Names ending in .gr or .ελ" (Government Gazette 973/B/19-3-18), as amended by the decisions of EETT: No 852/5/21. 5.5.2018 "Amendment of the Regulation on the Management and Assignment of Domain Names ending in .gr or .ελ (Government Gazette 973/B/2018)" (B' 2241), with (Government Gazette 3321/B/2018). 852/5/21.5.2018 "Amendment to the Regulation on the Management and Assignment of Domain Names ending in .gr or .ελ" (Government Gazette 973/A/2018)" published in Government Gazette 2241/B/15.6.2018, and with the No 917/8/25.11.2019 "Amendment to the Regulation on the Management and Assignment of Domain Names ending in .gr or .ελ" (Government Gazette 973/A/2018)" (B'4578).,
- e. EETT's decision No: 1099/1/2.2.2024 "Public Consultation regarding the Amendment of the Regulation on the Management and Assignment of Domain Names ending in .gr or .ελ",
- f. the EETT's Decision No: 1110/5/29.4.2024 "Approval of EETT's positions on the main points of the Public Consultation regarding the amendment of the Regulation on the Management and Assignment of Domain Names ending in .gr or .ελ"
- g. The fact that this decision incurs no cost for the State Budget or the EETT budget.

h. the recommendation of the competent EETT department (EETT No. 37532/24.4.2024).
and following an oral proposal by the President, Professor Constantinos Masselos,

Has decided:

The amendment and codification of the Regulation on the Management and Assignment of Domain Names ending in .gr or .ελ, the provisions of which are as follows:

CHAPTER I

Article 1

Objective - Scope of Application

The present Regulation regulates the procedure and rules for the assignment and use of [.gr] or [.ελ] domain names and the operation and obligations of Registrars.

1. The following Domain Names shall be subject to assignment exclusively:
 - a. 2nd level [.gr] or [.ελ] Domain Names, and
 - b. 3rd level [.gr] Domain Names in which only the third level is a Variable Field.
2. With the exception of 3rd level [.gr] Domain Names in which only the third level is a Variable Field, all other 3rd or higher level [.gr] or [.ελ] Domain Names shall not be subject to assignment by EETT and no exclusive rights to them shall be acquirable in accordance with the present Regulation.
3. The use of any 3rd or higher level Domain Name shall require the prior assignment in accordance with the present Regulation of the corresponding 2nd level [.gr] or [.ελ] Domain Name that makes up the 3rd or higher level Domain Name, or the prior assignment of the corresponding 3rd level [.gr] Domain Name in which only the third level is a Variable Field.
4. Subject to the terms and conditions of the present Regulation, a 3rd or higher level Domain Name made up by a [.gr] or [.ελ] Domain Name that in accordance with the present Regulation is subject to assignment by EETT, may be used either by the Holder of the assigned [.gr] or [.ελ] Domain Name or by any other natural or legal person having the consent of the Holder of the corresponding assigned [.gr] or [.ελ] Domain Name.

Article 2

Definitions

For the implementation of the present Regulation, the following terms shall have the meanings ascribed to them below:

Activation of a Domain Name: The start of operations of a Domain Name as a means of communication on the Internet through its registration in the corresponding Domain Name Servers.

Activation of a [.gr] or [.ελ] Domain Name: The start of operations of a [.gr] or [.ελ] Domain Name previously assigned in accordance with the present Regulation. The Registry includes registrations regarding the corresponding Domain Name Servers in the zone files it keeps. The Domain Name Servers declared for the [.gr] or [.ελ] Domain Name shall reply to name assignment declarations according to the provisions of the Internet Domain Name System and of Annex I attached hereto.

Assignment of a [.gr] or [.ελ] Domain Name: The act of registering in the Registry a relevant declaration that reserves for a specific natural or legal person, and grants to that person an exclusive right to use, a specific 2nd level [.gr] or [.ελ] Domain Name or 3rd level [.gr] Domain Name in which only the third level is a Variable Field, under the terms of the present Regulation.

Authoritative Domain Name Server: A Domain Name Server is an Authoritative Domain Name Server with respect to specific subsets of the tree structure of the Domain Names when it undertakes to keep all valid information that determines the specific subsets. Such information is organised in units called Zones, which may be automatically distributed to Domain Name Servers that provide back up services for the information of each Zone.

Code Injection: The exploitation of a computer bug that is caused by processing invalid data. Code injection can be used by an attacker to introduce and execute (or "inject") code into a computer program to change the course of execution.

Consent of the data subject: any freely given, specific, informed and unambiguous indication of the data subject's wishes by which he or she, by a statement or by a clear affirmative action, signifies agreement to the processing of personal data relating to him or her.

Controller: the natural or legal person, public authority, agency or other body which, alone or jointly with others, determines the purposes and means of the processing of personal data; where the purposes and means of such processing are determined by Union or Member State law, the controller or the specific criteria for its nomination may be provided for by Union or Member State law.

Cross-border processing: means either: (a) processing of personal data which takes place in the context of the activities of establishments in more than one Member State of a controller or processor in the Union where the controller or processor is established in more than one Member State; or (b) processing of personal data which takes place in the context of the activities of a single establishment of a controller or processor in the Union but which substantially affects or is likely to substantially affect data subjects in more than one Member State.

Denial of Service (DoS) or Distributed Denial of Service (DDoS): the technique by which the services and resources of a computer machine are made unavailable to its intended users.

DNSSEC: DNS Security Extensions: The system that provides security to the Domain Name System (DNS). The Registry imports DS records for the [.gr] or [.ελ] Domain Names wishing to use this technology. These entries are registered in the Registry by the Registrar following a relevant request by the Registrant or the Holder of the [.gr] or [.ελ] Domain Name. Changing the Domain Name Server of a Domain Name that uses DNSSEC may require prior arrangements and coordination between the former and the new Registrar and/or temporary removal of the DNSSEC entries from the Registry for the change to be carried out without interrupting the operation of the Domain Name.

Domain Name: An alphanumeric element assigned for use to a natural or legal person so that Internet protocols or services can be used by the specific person or with its consent. Particularly in the case of Domain Names with Greek characters, the assigned Domain Name may not be matching its form in Latin characters as used in the zone files, due to the technical representation required by the DNS.

1st or top level [.gr] or [.ελ] Domain Name: The [.gr] or [.ελ] Domain Name.

2nd level [.gr] or [.ελ] Domain Name: Any Domain Name in the form name.gr or name.ελ . The field “name” constitutes the second level of the 2nd level [.gr] or [.ελ] Domain Name.

3rd level [.gr] or [.ελ] Domain Name: Any Domain Name in the form [name2.name1.gr] or [name2.name1.ελ]. The fields “name2” and “name1” respectively constitute the third and the second level of the [.gr] or [.ελ] Domain Name.

[.gr] or [.ελ] Domain Name: For the purposes of this Regulation, any [.gr] or [.ελ] Domain Name that may be subject to assignment by EETT, i.e. all 2nd level [.gr] or [.ελ] Domain Names and all 3rd level [.gr] Domain Names in which only the third level is a Variable Field.

[.gr] or [.ελ] Domain Name Authorisation Code: A combination of alphanumeric characters that ensures the identification of the Domain Name Holder by the Registry and allows the Holder to manage the specific Domain Name. The authorisation code is temporary, limited in time, generated by the Registry upon request of the registrant and communicated to the email address registered by the registrant in the Registry.

Domain Name Server: An IT system connected to the Internet and having as main functions to keep information regarding the tree structure of the Domain Names and to match Domain Names with IP Addresses according to the Internet Domain Name System. A Domain Name Server may keep temporary copies of data regarding any section of the tree structure of the Domain Names, but usually a Domain Name Server keeps complete and valid information on a subset of the Domain Names, as well as references (pointers) to other Domain Name Servers that can guide to valid information on the other sections of the tree structure of the Domain Names.

Filing system: any structured set of personal data which are accessible according to specific criteria, whether centralised, decentralised or dispersed on a functional or geographical basis

Holder of a [.gr] or [.ελ] Domain Name: The natural or legal person to which a [.gr] or [.ελ] Domain Name has been assigned.

Homograph [.gr] or [.ελ] Domain Names: Domain Names in which the Non-variable Field is identical and the Variable Field consists of alphanumeric characters that visually match - in their lower case, upper case, punctuated or unpunctuated form - according to the Greek and Latin character correspondence table included in Annex XV attached hereto.

Internet Domain Name System (DNS): All software and hardware elements, along with their network connections, serving the Domain Name management principles established by the Internet standards RFC 1034, RFC 1035, RFC 1122, RFC 1123 and RFC 2182, as well as by all other standards subsequently amending, supplementing and/or being based on these.

IP Address: A sequence of 32 or 128 binary digits that is used for address assignment operations based on the Internet Protocol (IP).

ISO 3166-1 List: It is part of ISO 3166 standard and defines codes for the names of countries and dependent territories.

Main establishment: (a) as regards a controller with establishments in more than one Member State, the place of its central administration in the Union, unless the decisions on the purposes and means of the processing of personal data are taken in another establishment of the controller in the Union and the latter establishment has the power to have such decisions implemented, in which case the establishment having taken such decisions is to be considered to be the main establishment; (b) as regards a processor with establishments in more than one Member State, the place of its central administration in the Union, or, if the processor has no central administration in the Union, the establishment of the processor in the Union where the main processing activities in the context of the activities of an establishment of the processor take place to the extent that the processor is subject to specific obligations under this Regulation.

Personal data: any information relating to an identified or identifiable natural person ('data subject'); an identifiable natural person is one who can be identified, directly or indirectly, in particular by reference to an identifier such as a name, an identification number, location data, an online identifier or to one or more factors specific to the physical, physiological, genetic, mental, economic, cultural or social identity of that natural person;.

Personal data breach: a breach of security leading to the accidental or unlawful destruction, loss, alteration, unauthorised disclosure of, or access to, personal data transmitted, stored or otherwise processed.

Processing: any operation or set of operations which is performed on personal data or on sets of personal data, whether or not by automated means, such as collection, recording, organisation, structuring, storage, adaptation or alteration, retrieval, consultation, use, disclosure by transmission, dissemination or otherwise making available, alignment or combination, restriction, erasure or destruction.

Processor: a natural or legal person, public authority, agency or other body which processes personal data on behalf of the controller.

Recipient: a natural or legal person, public authority, agency or another body, to which the personal data are disclosed, whether a third party or not. However, public authorities which may receive personal data in the 4.5.2016 EN Official Journal of the European Union L 119/33 framework of a particular inquiry in accordance with Union or Member State law shall not be regarded as recipients; the processing of those data by those public authorities shall be in compliance with the applicable data protection rules according to the purposes of the processing.

Registration: The entire procedure followed for the assignment of [.gr] or [.ελ] Domain Names that starts with the submission of a relevant Registration Declaration to a Registrar and ends with the Assignment of a [.gr] or [.ελ] Domain Name.

Registrar: A natural or legal person that can receive registration declarations from parties interested in the assignment of a [.gr] or [.ελ] Domain Name, as well as any declarations with respect to [.gr] or [.ελ] Domain Names regarding transfer, change of the Holder's corporate name/name, activation of a reserved Domain Name, deletion, renewal, change in the data and/or change of Registrar, and activation of Increased security service. The Registrar must constantly meet the minimum requirements set forth in Annex II attached hereto, as applicable each time. Any natural or legal person meeting the minimum requirements of Annex II may act as a Registrar in accordance with the present Regulation and in particular with Articles 16 and 17 hereof.

Registrant: A natural or legal person that submits through a Registrar a registration declaration for the assignment of a [.gr] or [.ελ] Domain Name.

Registry: The database that includes all assigned [.gr] or [.ελ] Domain Names and any [.gr] or [.ελ] Domain Names for which registration declarations have been submitted, along with each one's corresponding data, as these are determined from time to time by an EETT Decision. In addition, the Registry (i.e. the legal person managing the Registry) is responsible for managing the Domain Name Servers and the zone files that are necessary for the functionality of the [.gr] or [.ελ] Domain Names. The Registry belongs to EETT, which is responsible for using it properly and in accordance with the legislation in force. EETT may manage the Registry on its own or assign its management to any other legal person under the terms hereof.

Representative: a natural or legal person established in the Union who, designated by the controller or processor in writing pursuant to this article, represents the controller or processor with regard to their respective obligations under this Regulation.

Reserved [.gr]or [.ελ] Domain Name: A Domain Name that is reserved according to paragraphs 11, 14 and 15 of Article 3 hereof, for a specific Holder and can be activated following the submission of an activation declaration by the holder, submitted to the Registry through the Registrar.

Resolvers: Programmes that extract information from Domain Name Servers, responding to client software requests. They must be able to access at least one Domain Name Server, as well as use the information kept by the Domain Name Server so as to reply to a query either directly or indirectly, following the references (pointers) to other Domain Name Servers.

Restriction of processing: the marking of stored personal data with the aim of limiting their processing in the future.

Third party: a natural or legal person, public authority, agency or body other than the data subject, controller, processor and persons who, under the direct authority of the controller or processor, are authorised to process personal data.

Variable Field: The Variable Field of a Domain Name is that part of the Domain Name that is not exclusively made up of:

- i. the alphanumeric element [.gr] or [.ελ], and/or
- ii. the alphanumeric elements that make up a Common Use [.gr] Domain Name.

Zone File: A file that is hosted in a Domain Name Server and determines precisely, among other things, Domain Names along with the corresponding subdomains, IP Addresses and name assignment servers.

CHAPTER II

Synthesis of the domain names to be assigned

Article 3

Synthesis of the [.gr] or [.ελ] Domain Names – Scope of Assignment

1. All [.gr] Domain Names shall consist either:
 - a. of Latin alphabet alphanumeric characters [i.e. A-Z, a-z, 0-9] plus the special characters [-] and [.] as regards both their Variable and Non-variable Fields.
 - or:
 - b. of Greek alphabet alphanumeric characters [i.e. A-Ω, α-ω, 0-9] codified in PUNYCODE format as regards their Variable Field and of Latin alphabet alphanumeric characters [i.e. A-Z, a-z, 0-9] as regards their Non-variable Field, plus the special characters [-] and [.]
2. All [.ελ] Domain Names shall consist either:
 - a. of Greek alphabet alphanumeric characters [i.e. A-Ω, α-ω, 0-9] codified in PUNYCODE format plus the special characters [-] and [.] as regards both their Variable and Non-variable Fields, or:

b. of Latin alphabet alphanumeric characters [i.e. A-Z, a-z, 0-9] as regards their Variable Field and of Greek alphabet alphanumeric characters [i.e. Α-Ω, α-ω, 0-9] codified in PUNYCODE format plus the special characters [-] and [.] as regards their Non-variable Field.

3. The special character [.] shall be used only for level separation purposes. Each level of the [.gr] or [.ελ] Domain Names shall neither start nor end with the character [-] and/or shall not include successive [-] characters.
4. Any [.gr] or [.ελ] Domain Names that use both Latin and Greek alphabet alphanumeric characters within the same level shall not be supported.
5. The alphanumeric Greek character [ς] is different from the alphanumeric Greek character [σ].
6. With respect to all [.gr] or [.ελ] Domain Names, no distinction shall be made between lower case or upper case Latin characters.
7. With respect to all [.gr] or [.ελ] Domain Names, no distinction shall be made between lower case or upper case unpunctuated Greek characters, and lower case or upper case punctuated Greek characters.
8. The Variable Field of the [.gr] or [.ελ] Domain Name consists of two (2) to sixty three (63) characters. The [.gr] or [.ελ] end characters and the end characters of any Common Use 2nd level [.gr] Domain Names shall not be taken into account in the above counting. In the case of [.gr] or [.ελ] Domain Names that consist of Greek alphabet alphanumeric characters, the number of sixty three (63) characters shall pertain to the length of the PUNYCODE format of the Domain Name, which however may not necessarily be matching the number of characters of the Domain Name in its Greek form.
9. All [.gr] or [.ελ] Domain Names shall be assigned in the lower case form declared by the Registrant in its registration declaration. The [.gr] or [.ελ] Domain Names in which the Variable Field consists of Greek characters shall be assigned in the lower case form declared by the user in its registration declaration (i.e. with any marks of accentuation, dieresis, punctuation, word-final position sigma (ς) and/or lower case sigma (σ),etc.).
10. The lower case unpunctuated form of the name of [.gr] or [.ελ] Domain Names consisting of lower case Greek characters with punctuation shall be assigned to the holder without additional charge. In the event that the Variable Field of the [.gr] or [.ελ] Domain Name includes the word-final position sigma (ς) the following shall be assigned to the Holder without additional charge:
 - The lower case unpunctuated form of the name with word-final position sigma (ς), wherever this existed in the initial registration form.
 - The lower case unpunctuated form of the name with lower case sigma (σ), wherever a word-final position sigma existed in the initial registration form.
11. Other forms of the same [.gr] or [.ελ] Domain Name, i.e.:
 - [.gr] or [.ελ] Domain Names resulting from a combination of the lower case unpunctuated form with punctuation marks placed at points other

than those of the lower case form declared by the Registrant in his initial registration form and/or

- [.gr] or [.ελ] Domain Names with a word-final position sigma in the place where there was a lower case sigma in the initial registration form of the Registrant and/or
- [.gr] or [.ελ] Domain Names with a lower case sigma in the place where there was a word-final position sigma in the initial registration form of the Registrant

shall be automatically reserved for the Registrant but shall only be activated following the Holder's submission of an activation declaration to the Registry.

12. In the event that the Registrant states the lower case unpunctuated form of the domain name, the activation of any other reserved form constitutes a chargeable act.
13. The [.gr] or [.ελ] Domain Names in which the variable field consists of Greek characters shall be registered in the Registry in their corresponding PUNYCODE formats. The lower case unpunctuated form shall be declared in the zone file of the Registry as the main form of the name, and all actions of the Registry in accordance with the present Regulation shall be carried out based on this lower case unpunctuated form or the lower case unpunctuated form with a lower case sigma/sigmas if the requested domain name contains a sigma.
14. Any [.ελ] Domain Names that are homographs of a [.gr] Domain Name for which a registration declaration is submitted shall be automatically reserved for the Registrant / Holder of the above assigned [.gr] Domain Name and shall be activated following the Registrant / Holder's submission of an activation declaration to the Registry. In case that a reserved homograph Domain Name is a country code included in the ISO 3166-1 list of the ISO 3166-1 alpha-2, ISO 3166-1 alpha-3 organization, then it is not possible to activate the reserved Domain Name.
15. Any [.ελ] Domain Names that are homographs of a [.ελ] Domain Name for which a registration declaration is submitted shall be automatically reserved for the Registrant / Holder of the above assigned [.gr] Domain Name and shall be activated following the Registrant / Holder's submission of an activation declaration to the Registry. In case that a reserved homograph Domain Name is a country code included in the ISO 3166-1 list of the ISO, (ISO 3166-1 alpha-2, ISO 3166-1 alpha-3) organization, then it is not possible to activate the reserved Domain Name.
16. The Holder of a [.gr] or [.ελ] Domain Name shall be required not to activate reserved [.gr] or [.ελ] Domain Name forms that could not be subject to assignment on their own.
17. In case there are two (or more) homograph names assigned to different Holder's prior to 4 July 2005 (start of assignment of Domain Names with Greek characters), no Holder shall have the right to activate any possible third homograph of the aforementioned names.

18. Any form of a reserved [.gr] or [.ελ] Domain Name that is activated shall thereupon become an active Domain Name and all the provisions hereof shall be applicable to it.
19. EETT may determine by a subsequent Decision the use of alphanumeric characters of any other form or alphabet in the Variable or Non-variable Fields. The provisions of the present Regulation and of all individual EETT Decisions shall be applicable to such end characters and/or alphabets as well.

Article 4

Synthesis of Common Use 2nd level [.gr] Domain Names

1. EETT shall be entitled to determine by a relevant Decision the Common Use 2nd level [.gr] Domain Names to which no person may acquire any exclusive right, and which can be used, subject to the provisions hereof, for the assignment of 3rd level [.gr] Domain Names in which only the third level is a Variable Field to any interested party. The employment of these Common Use 2nd level [.gr] Domain Names aims at facilitating search on the Internet, through the establishment and categorisation of elements identifying the capacity and/or status of a specific [.gr] Domain Name Holder. The Ministry of Digital Governance may post content on the domain names "gov.gr" and "www.gov.gr". (Government Gazette II 4578/2019)
2. All Common Use 2nd level [.gr] Domain Names shall be determined by EETT and included in Annex III attached hereto.
3. As an exception to subparagraph (b) of paragraph 2 of Article 6 hereof, the assignment of a 3rd level [.gr] Domain Name in which only the third level is a Variable Field and the second level consists exclusively of the alphanumeric characters that make up the element [.gov] shall rule out the use of the same second level [.gr] or [.ελ] Variable Field by any other person.
4. EETT shall be entitled to amend Annex III from time to time, after holding a relevant public consultation.
5. It shall not be possible to create Common Use [.ελ] Domain Names.

Article 5

Use of 3rd or higher level Domain Names without assignment

1. No assignment procedure shall be required for 3rd or higher level [.gr] or [.ελ] Domain Names made up by 2nd level [.gr] or [.ελ] Domain Names or 3rd level [.gr] Domain Names in which only the third level is a Variable Field.
2. The Domain Name Holder shall be entitled to allow or forbid any third parties to use in common with the Holder the [.gr] or [.ελ] Domain Name assigned to it.
3. In addition, the Holder of a [.gr] or [.ελ] Domain Name:
 - a. shall be exclusively responsible for the activation, with its consent or tolerance, of a 3rd level Domain Name in which the second level is Variable

or of a higher level Domain Name that includes the [.gr] or [.ελ] Domain Name assigned to it;

b. shall be required to ensure that it shall forbid the activation of a 3rd level Domain Name in which the second level is Variable or of a higher level Domain Name that includes the [.gr] or [.ελ] Domain Name assigned to it, or that it shall deactivate any such Domain Name in case there are grounds that would not permit its assignment / activation or the deletion of the assigned Domain Name, respectively, in accordance with the present Regulation;

c. shall be required to have the corresponding infrastructure necessary for achieving the above.

4. In case of transfer of the assigned [.gr] or [.ελ] Domain Name, the new Holder shall acquire the rights held by the previous Holder prior to the transfer, according to the provisions of this article.
5. Any right granted by the Holder to a third party shall not constitute an assignment in accordance with this Regulation.
6. Deletion of the [.gr] or [.ελ] Domain Name of the Holder shall entail the discontinuation of all Domain Names that operate based on the specific [.gr] or [.ελ] Domain Name according to this article.
7. The Holder shall be required to inform any interested party in writing with respect to the rights it acquires in accordance with this Regulation.

Article 6

Right over a [.gr] or [.ελ] Domain Name

1. The right acquired upon assignment of a [.gr] or [.ελ] Domain Name shall consist exclusively in the following:
 - a. the acquisition by the [.gr] or [.ελ] Domain Name Holder of an exclusive right to reserve and use the specific alphanumeric elements it has declared in its Registration Declaration where in the case of a Domain Name in which the Variable Field consists of Greek characters the above exclusive right of reservation and use shall also include the forms declared in the Domain Name Registration Declaration set forth in paragraph 9 of article 3 with the exclusive purpose of enabling the use of Internet protocols or services by the Holder or with its consent;
 - b. the automatic reservation of the forms specified in paragraphs 11, 14 and 15 of Article 3 hereof for the Holder of the specific Domain Name, and the right of the Holder to definitively activate by submitting an activation declaration (according to Annex XVII attached hereto) within the duration of the exclusive right of use any form of the Domain Name assigned to it.
 - c. the acquisition by the Holder of an exclusive right to submit a renewal declaration for the specific Domain Name, as well as for its activated reserved forms, within fifteen (15) days from the expiry date of the Holder's exclusive right to use the Domain Name. After expiry of these fifteen (15)

days, the Domain Name shall be made available for registration to any interested person. No renewal declaration can be submitted for a reserved form or an activated reserved form without renewal of the main form of a Domain Name.

d. the automatic reservation of the forms specified in paragraphs 11, 14 and 15 of Article 3 hereof for the Holder of the specific Domain Name for fifteen (15) days from the expiry date of the Holder's exclusive right to use the Domain Name.

2. Without prejudice to the existence of any other right to the element that consists exclusively of the alphanumeric characters that make up the Variable Field of :

a. A 2nd level [.gr] Domain Name, the Holder of the specific 2nd level [.gr] Domain Name shall not be entitled to prevent the assignment of a 3rd level [.gr] Domain Name in which only the third level is a Variable Field and in which the Variable Field consists of the same alphanumeric characters.

b. A 3rd level [.gr] Domain Name in which only the third level is a Variable Field, the Holder of the specific 3rd level [.gr] Domain Name in which only the third level is a Variable Field shall not be entitled to prevent the assignment of a 2nd level [.gr] Domain Name in which the Variable Field consists of the same alphanumeric characters.

c. A 3rd level [.gr] Domain Name in which only the third level is a Variable Field, the Holder of the specific 3rd level [.gr] Domain Name in which only the third level is a Variable Field shall not be entitled to prevent the assignment of a 3rd level [.gr] Domain Name in which only the third level is a Variable Field and in which the Variable Field consists of the same alphanumeric characters, as long as the second level of the second 3rd level [.gr] Domain Name in which only the third level is a Variable Field is made up by any Common Use [.gr] Domain Name.

3. The Holder of a [.gr] Domain Name shall be entitled to forbid any third party:

a. To use, without the Holder's consent, exclusive alphanumeric elements identical to those making up the Variable Field of the [.gr] Domain Name of the Holder, in the make up of the Variable Field of another [.gr] Domain Name of the same level in which the Non-variable Field is the same as the Non-variable Field of the Domain Name of the Holder.

b. To use, without the Holder's consent, exclusive alphanumeric elements identical to those making up the Variable Field of any [.gr] Domain Names reserved for the Holder, in the make up of the Variable Field of another [.gr] Domain Name of the same level in which the Non-variable Field is the same as the Non-variable Field of the Domain Name of the Holder.

4. The Holder of a [.ελ] Domain Name shall be entitled to forbid any third party:

a. To use, without the Holder's consent, exclusive alphanumeric elements identical to those making up the Variable Field of the [.ελ] Domain Name of the Holder, in the make up of the Variable Field of another [.ελ] Domain Name of

the same level in which the Non-variable Field is the same as the Non-variable Field of the Domain Name of the Holder.

b. To use, without the Holder's consent, exclusive alphanumeric elements identical to those making up the Variable Field of any [.ελ] Domain Names reserved for the Holder, in the make up of the Variable Field of another [.ελ] Domain Name of the same level in which the Non-variable Field is the same as the Non-variable Field of the Domain Name of the Holder.

5. The right to a [.gr] or [.ελ] Domain Name shall be acquired upon assignment thereof in accordance with this Regulation, but shall date back to the time of submission of the Registration Declaration to the EETT Registry.
6. The assignment of a 2nd level [.gr] Domain Name shall not constitute as well the assignment of a 3rd level [.gr] Domain Name in which only the third level is a Variable Field that is identical to the Variable Field of the assigned Domain Name. Accordingly, the assignment of a 3rd level [.gr] Domain Name in which only the third level is a Variable Field shall not constitute as well the assignment of a 2nd level [.gr] Domain Name that has an identical Variable Field, or the assignment of a 3rd level [.gr] Domain Name in which only the third level is a Variable Field that is identical to the Variable Field of the assigned Domain Name while the second levels of these two Domain Names are different.
7. The provisions hereof shall in no way restrict any trademark rights to any undertakings (of natural or legal persons), or products and/or services, or any copyrights.

CHAPTER III Assignment of Domain Names

Article 7 Procedure for the Registration and Assignment of [.gr] or [.ελ] Domain Names

1. The Registration of the Declaration in the Registry for the assignment of a [.gr] or [.ελ] Domain Name shall be governed by the principle of time priority.
2. Any person wishing to be assigned a specific [.gr] or [.ελ] Domain Name shall be required to fill out and submit a Registration Declaration in written or electronic form, supplying all information necessary for such purpose. The registration declaration is described in Annex V attached hereto. Each Domain Name may be assigned to a single natural or legal person, with no possibility of co-assignment to more than one natural or legal persons.
3. The declared Domain Names are written on the Registration Declaration with lower case characters.

4. All [.gr] or [.ελ] Domain Names can be assigned to any Greek or foreign natural or legal person, whether established in Greece or not.
5. No restriction shall exist as to the number of [.gr] or [.ελ] Domain Names that can be assigned to one single person.
6. The Registration Declaration must be accompanied by a solemn statement of the Registrant, as set out in Annex V and states the following:
 - a. what is stated therein is true and accurate;
 - b. that the declaration shall be binding upon the specific legal person, in the case of a legal person;
 - c. that to the best of the Registrant's knowledge the assignment of the [.gr] or [.ελ] Domain Name in question does not violate the rights of any third parties;
 - d. if the Variable Field of the 2nd level [.gr] or [.ελ] Domain Name is the same as a geographical term included in the list of geographical terms published on the EETT website in its Greek and Latin form (according to Annex XII attached hereto), it is the corresponding Local Government Organisation;
 - e. in case of a Registration Declaration for a [.gov.gr] Domain Name, it is a governmental organisation.
7. All registration declarations shall be submitted by the Registrant to one of the Registrars included in the List of Registrars that EETT shall maintain, publish and occasionally amend, according to Article 16 hereof.
8. The Registrar shall forward the registration declaration data to the Registry within one (1) working day.
9. The Registrars shall be required to make known to the Registrants by any suitable means and in any case prior to the submission of a Registration Declaration, and to publish on a conspicuous location on their website:
 - a. that the time priority of the Registration Declarations submitted by the Registrants is only ensured upon the assignment of a reference number to them by the Registry, and not upon their submission to the Registrar;their method of communication with the Registry and the period that may be required for a submitted Registration Declaration to be forwarded to the Registry and assigned a reference number by it, which in any case must not exceed one (1) working day.
10. Upon submission of the Registration Declaration, the Registry shall automatically assign to each Registration Declaration a reference number stating the exact date, hour and minute of submission, and shall certify the submission of the specific Registration Declaration using the specific reference number, date, hour and minute of the Declaration's submission. The time priority of the Registration Declaration shall be based on the assignment of such a reference number to it by the Registry.

11. Registration Declarations for Domain Names that are in an assignment period or reservation period are not valid and are rejected without assignment of such a reference number.
12. The Registry shall notify the Registrar with respect to the Registration Declaration data, the reference number, and the date, hour and minute of submission.
13. Within one (1) working day from the notification of the Registration Declaration data by the Registry, the Registrar shall be required to provide the Registrant with a document proving the submission of the Registration Declaration that shall state the [.gr] or [.ελ] Domain Name declared, the Registrants Name, the reference number, and the date, hour and minute of submission of the Registration Declaration, as these data were sent by the Registry.
14. Immediately upon submission of the Registration Declaration, the Registry shall examine whether the declaration is void according to Article 8 hereof, and if it is not the [.gr] or [.ελ] Domain Name shall be temporarily activated and assigned within six (6) days. Registration Declarations that are not in line with the provisions on the make up of domain names set forth in Article 3 are rejected without assignment of a reference number.
15. Particularly in the cases of items (vii) and (xi) of paragraph 1 of Article 8 hereof, the Registrant shall be notified within twenty (20) days from the forwarding of the Registration Declaration to the Registry with respect to whether the Registration Declaration is void. During the period up to the Registrant's notification no temporary activation of the Domain Name shall be carried out. Domain names in case (k) of the first paragraph of Article 8 may be activated temporarily, due to exceptional circumstances, upon request of the holder to EETT.
16. In case of incorrect submission of the Declaration, or following a request by the Registrant, or in case of non-payment of the respective legal fees by the Registrant, the Registrar shall have the right to withdraw the Registration Declaration within five (5) days from its submission to the Registry free of charge.
17. In any case the Registrar shall keep in electronic or written form all documents (original or not) accompanying the Registration Declaration.
18. After the forwarding of the Registration Declaration by the Registrar to the Registry and the expiry of the time limit of five (5) days allowed according to paragraph 16 of the present Article, the [.gr] or [.ελ] Domain Name for which the Registration Declaration was submitted shall be assigned, unless the Registration Declaration is void according to paragraph 14 of this Article.
19. The Registry shall notify the Registrant, via e-mail sent to the electronic address declared in the Registration Declaration, with respect to whether the Registration Declaration is void or the [.gr] or [.ελ] Domain Name has been assigned.
20. The [.gr] or [.ελ] Domain Name shall be definitively activated upon its assignment.

21. EETT may disclose any documents at the electronic address stated in the Registry. EETT may use any other appropriate method of communicating documents.

Article 8 **Void Registration Declarations**

1. In the following limitedly specified cases, a Registration Declaration shall be considered void and shall not produce any legal consequence whatsoever:
 - a. If the Registration Declaration is not complete, i.e. if its mandatory fields according to Annex V attached hereto have not been properly filled in.
 - b. If the Variable and/or the Non-variable Field of the [.gr] or [.ελ] Domain Name runs contrary to the provisions of paragraphs 1 to 8 of Article 3 hereof.
 - c. If at the time of submission of the Registration Declaration a [.gr] or [.ελ] Domain Name identical to the one for which the Registration Declaration is submitted has already been assigned to any other person. Also, when multiple declarations are submitted for the same Domain Name not yet assigned, or for homographs thereof, these declarations shall be placed in time priority order and examined in the light of paragraph 1 of Article 7 hereof. In case one Registration Declaration leads to assignment, all other declarations shall be immediately rejected as void. In case some Registration Declarations are either withdrawn or rejected as void, the next ones in time priority order shall be examined, without them being temporarily activated.
 - d. If at the time of submission of the Registration Declaration a Domain Name identical to the one for which the Registration Declaration is submitted has already been reserved in the sense of this Decision for any other person.
 - e. If the Variable Field of the 2nd level [.gr] or [.ελ] Domain Name constitutes a Common Use Domain Name in accordance with Annex III of this Regulation.
 - f. If the Variable Field of the specific [.gr] or [.ελ] Domain Name is identical to the Variable Field of an already assigned [.gr] Domain Name in which the second level consists of the alphanumeric characters [.gov].
 - g. If the Variable Field of a requested 2nd level [.gr] or [.ελ] Domain Name is the same as a geographical term included in the list of geographical terms published on the EETT website in its Greek and Latin form (according to Annex XIII attached hereto) and the data included in the Registration Declaration do not identify the Holder requesting it as the corresponding Local Government Organisation entitled to it. This restriction shall not be applicable to the Variable Field of a requested 3rd level [.gr] Domain Name.
 - h. If the Variable Field of a 2nd level [.gr] or [.ελ] Domain Name constitutes a country code included in the ISO 3166-1 list of the International Organisation for Standardisation (ISO 3166-1).
 - i. If the Variable Field of a 2nd level [.gr] or [.ελ] Domain Name or of a Common Use 3rd level [.gr] Domain Name consists of alphanumeric characters that make up any element the use of which has been deemed as

running contrary to public order and/or good morals, unless otherwise deemed by an EETT Decision.

j. If the Variable Field of a 2nd level [.gr] or [.ελ] Domain Name or of a Common Use 3rd level [.gr] Domain Name is the same as a term included in the list of terms that it is deemed they constitute elements and/or any official terms of the Greek State and/or of the other States and/or international organisations and/or entities referred to in Article 6 three of the Paris Convention on Industrial Property, as well as any highly symbolic element, including in particular religious symbols and words, unless otherwise deemed by an EETT Decision.

k. If the data included in the Registration Declaration submitted according to the Regulation do not identify the Holder as a governmental organisation entitled to the assignment of a Common Use 3rd level [.gov.gr] Domain Name.

2. Domain Name Declarations, where the Variable Field of a 2nd level is a homograph of a country code contained in the ISO 3166-1 list of the ISO (ISO 3166-1 alpha-2, ISO 3166-1 alpha-3), are not considered void.
3. The provisions of items (g) and (h) of paragraph 1 of this Article aim at preventing the assignment of any exclusive rights to [.gr] or [.ελ] Domain Names disproportionate to the purpose justifying such assignment in accordance with this Regulation, and at limiting these exclusive rights to [.gr] or [.ελ] Domain Names to the extent absolutely appropriate for serving the purpose justifying their assignment in accordance with this Regulation.

Article 9

Duration of Assignment and Renewal

1. The exclusive right of use acquired upon assignment of a [.gr] or [.ελ] Domain Name shall have a duration of two (2) years from the date of submission of the Registration Declaration to the Registry, while the right of reservation shall have an additional duration of fifteen (15) days from the expiry of the exclusive right of use.
2. With respect to the reserved forms of the [.gr] or [.ελ] Domain Name assigned, the right of activation shall have a duration of two (2) years from the date of submission of the Registration Declaration, while the right of reservation shall have an additional duration of fifteen (15) days from the expiry date of the right of activation.
3. The exclusive right of use acquired with respect to [.gr] or [.ελ] Domain Names that had been reserved for a specific Holder and were activated following a relevant declaration by the Holder, shall have a duration of two (2) years from the date of submission of the Registration Declaration for the assignment of the [.gr] or [.ελ] Domain Name based on which the Domain Names in question were reserved for the Holder, and not from the date of their activation, while the respective right of reservation shall have an additional duration of fifteen (15) days from the date of submission of the Registration Declaration for the assignment of the [.gr] or [.ελ] Domain Name based on which these Domain Names were reserved for the Holder.

4. Any assignment may be constantly renewed for successive assignment periods according to paragraph 1 of the present article. The Holder shall be entitled to renew the assignment for more than one assignment periods.
5. For the renewal of a [.gr] or [.ελ] Domain Name its Holder shall be required to submit a relevant declaration to the Registrar within the time limit set forth in subparagraph (c) of paragraph 1 of Article 6 hereof, accompanied by the relevant legal fees. In any case, the duration of the exclusive right of use and reservation acquired by the Holder upon renewal of the assignment shall start from the expiry date of the exclusive right of use of the previous assignment period, and not from the date of submission of the renewal declaration.
6. Any renewal of the assigned [.gr] or [.ελ] Domain Name shall entail at the same time a corresponding renewal of any form of the assigned Domain Name automatically reserved according to paragraphs 11, 14 and 15 of Article 3 hereof, as well as of all the reserved forms of the assigned [.gr] or [.ελ] Domain Name that were activated following a declaration by the Holder. In case the Holder does not wish to renew a reserved form of the assigned [.gr] or [.ελ] Domain Name that was activated following a declaration by it, it shall be required to apply for the de-activation of the form in question prior to the renewal of the [.gr] or [.ελ] Domain Name. In case of [.gr] or [.ελ] Domain Names that lie passed their expiry date but within their reservation period, the renewal declaration shall pertain to the entire group of forms of the [.gr] or [.ελ] Domain Name, including any activated Domain Name forms, and shall entail the corresponding charges.
7. The Registrar shall be required to forward the declaration for the renewal of a [.gr] or [.ελ] Domain Name to the Registry within one (1) working day from its delivery and in any case prior to the expiry of the exclusive right of renewal, as set forth in subparagraph (c) of paragraph 1 of Article 6 hereof.
8. The renewal shall be carried out upon registration of the declaration in the Registry.
9. Upon expiry of the exclusive right of use, the Domain Name and all its reserved forms shall be temporarily deactivated for fifteen (15) days without any prior EETT Decision, while upon expiry of the reservation period the [.gr] or [.ελ] Domain Name shall be definitively deactivated and left unreserved. The procedure for releasing the Domain Names takes place between 00.00 and 01.00UTC. In the event of failure of the above procedure for releasing Domain Names, a new time for its release within twenty four hours is announced electronically. The announcement must precede the release procedure by at least one hour.
10. No [.gr] or [.ελ] Domain Name renewal can be carried out throughout the period in which there are any pending declarations of the [.gr] or [.ελ] Domain Name Holder that pertain to a Domain Name transfer.

CHAPTER IV
**Procedures for the deletion and temporary de-activation of an assigned [.gr]
or [.ελ] Domain Name**

Article 10

Grounds for the deletion of an assigned [.gr] or [.ελ] Domain Name

A) A [.gr] or [.ελ] Domain Name shall be definitively deleted when one or more of the following limitedly specified cases apply:

- If the Holder requests such deletion by a relevant declaration (Annex XI) submitted to the Registry through the Registrar managing the specific [.gr] or [.ελ] Domain Name.
- If by operation of law or following a complaint made by a third party that has a vested legal interest to do so, it is ascertained that one or more of the following limitedly specified cases apply:
 1. If the Registration Declaration was not accurate as to its mandatory fields, and in particular in case:
 - a. the data included in the Registration Declaration and thereby registered in the Registry do not identify the Holder; and/or
 - b. the content of the solemn statement submitted along with the Registration Declaration proves to be false in any way.
 2. If the Variable Field of a [.gr] or [.ελ] Domain Name is identical to or similar enough to create confusion with a name to which any other right already exists based on any national or community legislation, and the specific [.gr] or [.ελ] Domain Name:
 - i. has been registered by a holder that has no right or vested legal interest to that name; and/or
 - ii. has been registered or is used in bad faith.
 3. If there are grounds that would disallow the assignment of the specific [.gr] or [.ελ] Domain Name according to Article 8 hereof, except if the [.gr] Domain Name had been assigned prior to 30-12-2002. The case of item (g) of paragraph 1 of Article 8 hereof as grounds for deletion shall pertain only to [.gr] or [.ελ] Domain Names assigned after 8-8-2011.
 4. In case the Holder does not comply with its obligation to declare any change in the assignment data, as provided for in paragraph 2 of Article 11 hereof, and the period of thirty (30) days after the temporary deactivation of the name allowed to the Holder in order to give notice of any such change expires.
 5. If the registration declaration for the assignment of a [.gr] or [.ελ] Domain Name has been made in violation of the principles of good faith, except if the [.gr] Domain Name had been assigned prior to 30-12-2002.
 6. In case the Holder has used the [.gr] or [.ελ] Domain Name in any way that runs contrary to the principles of good faith or is malicious, and in particular if the Holder has allowed or tolerated any third party use of the specific [.gr] or [.ελ] Domain Name or of a 3rd or higher level [.gr] or [.ελ] Domain Name that consists of the [.gr] or [.ελ] Domain Name assigned to the Holder in any way that would constitute grounds for the deletion of this [.gr] or [.ελ] Domain Name according to this article.

7. In case the Holder is a natural person that has passed away, as long as none of the natural persons legal heirs or will executors request within twelve (12) months from the date of the natural persons death the transfer of the [.gr] or [.ελ] Domain Name as a result of universal succession, according to Annex VIII attached hereto.
8. In case the Holder of a [.gr] or [.ελ] Domain Name is a legal person that pursuant to relevant legalising documents has ceased to exist and has been succeeded in any way by another person with respect to its rights and obligations as Holder of the specific [.gr] or [.ελ] Domain Name, as long as the new Holder does not request within six (6) months from the date of succession to such rights and obligations according to the legislation in force the transfer of the [.gr] or [.ελ] Domain Name to the new Holder according to Annex VIII attached hereto.
9. In case the [.gr] or [.ελ] Domain Name constitutes any element and/or official term of the Greek State and/or of the other States and/or international organisations and/or entities referred to in Article 6 three of the Paris Convention on Industrial Property, as well as any highly symbolic element, including in particular religious symbols and words.
10. In case the specific [.gr] or [.ελ] Domain Name runs contrary to public order and good morals.

Following a decision by a public prosecutor, or a court or an arbitration body or a decision by a competent administrative authority or another competent body enforceable in Greece, ordering the deletion of a specific Domain Name ending in .gr or .ελ.B) In case a [.gr] or [.ελ] Domain Name is deleted or temporarily deactivated, any form of the assigned Domain Name automatically reserved according to paragraphs 10, 11, 14 and 15 of Article 3 hereof shall also be deleted and temporarily deactivated.

C) Any reserved [.gr] or [.ελ] Domain Name activated following a declaration by the Holder under the Regulation in force according to the provisions of items paragraphs 1 to 6 and 8 to 10 of this article, may be deactivated following a complaint made by a third party that has a vested legal interest and the issuance of an EETT Decision, as well as in case of an irrevocable court ruling, or of a corresponding arbitration body decision enforceable in Greece, that orders the deactivation of the specific [.gr] or [.ελ] Domain Name.

D) In case EETT ascertains, by operation of law or following a complaint made by a third party, that a new declaration for the registration of a [.gr] or [.ελ] Domain Name or for the activation of a reserved [.gr] or [.ελ] Domain Name has been registered in the Registry unaccompanied by any justification by the same person for which the Domain Name in question had been deleted or deactivated by an EETT Decision or a court ruling, the registration or activation of the [.gr] or [.ελ] Domain Name in question shall be re-examined in the light of this article and in case the new registration or activation declaration is unjustifiable the [.gr] or [.ελ] Domain Name shall be deleted or deactivated by an EETT Decision.

Article 11

Temporary deactivation or deletion of an assigned .gr or .ελ Domain Name

1. A Domain Name ending in .gr or .ελ shall be temporarily deactivated or deleted in the following cases:

a) upon notification to EETT of a public prosecutor's order, a court decision or a decision of a competent administrative authority or other competent body enforceable in Greece ordering temporary deactivation or deletion. In case the act to be executed is not clear, the body subject to execution shall send a letter of clarification to the issuing body by e-mail or any other appropriate means,

b) by decision of the President of EETT or his legal deputy if there is evidence that a reason for deletion is established in accordance with Article 10 of this Regulation, subject to the provision of Article 138 of Law No. 4727/2020 as in force and the Regulation on the Procedure for the Taking of Insurance Measures by EETT (EETT Decision 272/64/10.1.2003 (Government Gazette 158/B/2003)) as in force.

The temporary deactivation or deletion of domain names on the basis of the above cases is carried out either by the Telecommunications Regulation Department or by the staff of the Telecommunications Regulation Department within the framework of the standby team of the Telecommunications and Digital Governance Directorate, with the notification of the above decisions/orders under (a) and (b), provided that the name of the site for which the temporary deactivation or deletion is ordered is clearly specified, otherwise an informative-clarifying letter is sent to the e-mail address from which the above act to be executed was sent.

Provisional deactivation shall remain in force until the adoption of a final decision, enforceable in Greece, by the body that issued the decision/order of provisional deactivation or by the body that has become competent to do so, ordering the revocation of the initial decision or the deletion of the Domain Name or the transfer and assignment to a third party of the specific Domain Name or until the expiry of the period of assignment thereof, if this period has expired before the adoption of the relevant decision. During the period in which the name is temporarily deactivated, the holder of the .gr or .ελ Domain Name, if it wishes to renew the domain name, shall submit a renewal declaration. Similarly, the applicant may, if he/she so wishes, make a change of Registrar as well as a declaration of change of data pursuant to Article 12 for the .gr or .ελ Domain Name.

2. In the event that the EETT determines that the Entity has not complied with its obligation to declare a change in the assignment data as provided for in paragraph 7 of Article 12, it may, by decision of its President or his/her legal deputy, temporarily deactivate the .gr or .ελ Domain Name for a period of thirty (30) days. During this period, the Entity, through the Registrar of the Domain Name, shall notify the Registry of any change in the assignment data as well as the relevant legal documents showing the correctness of the data submitted. If the Registrar meets its obligation within the aforementioned period, EETT may, by decision of its President, lift the temporary deactivation. Otherwise, it may, by its Decision, delete the .gr or .ελ Domain Name.

3. In the event that the EETT is notified of pending legal proceedings requesting the temporary deactivation of a .gr or .ελ Domain Name, the EETT shall prohibit the transfer to a third party and/or the deletion until the adoption of a decision by a court or an arbitration body, which is enforceable in Greece,

ordering the deactivation of a Domain Name ending in .gr. or .ελ, unless the expiry of the period of registration of the Domain Name occurs before the conclusion of the relevant hearing before the EETT or judicial proceedings and the .gr or .ελ Domain Name is not renewed. Therefore, the above prohibition of transfer and/or deletion shall apply until the expiry of the registration period of the domain name.

4. The temporarily deactivated Domain Name shall expire upon the expiry of the exclusive right of use and reservation granted under this Regulation.
5. In the event that a .gr or .ελ Domain Name is deleted or temporarily deactivated, the use or temporary deactivation of a .gr or .ελ Domain Name shall cease or be temporarily deactivated, respectively, as well as the third or subsequent level Domain Names with a .gr or .ελ extension whose component is the deleted or temporarily deactivated .gr or .ελ Domain Name.

CHAPTER V

Acts related to assigned domain names

Article 12

Changes in the Assignment Data

1. All [.gr] or [.ελ] Domain Name Holders shall have the right to change the data that pertain to the [.gr] or [.ελ] Domain Name assigned to them. Any change in the data that pertain to the assigned Domain Name shall entail a corresponding change in the data that pertain to:
 - a) any form of the assigned [.gr] or [.ελ] Domain Name automatically reserved according to paragraphs 10, 11, 14 and 15 of Article 3 hereof; and
 - b) any reserved form of the assigned [.gr] or [.ελ] Domain Name activated following a relevant declaration by the Holder.
2. All changes in the data that pertain to the [.gr] or [.ελ] Domain Name and/or changes of the Holder's name and/or corporate name shall be carried out through the Registrars.
3. The Registrar shall take delivery of the Holder's Data Change Declaration according to Annex VI attached hereto, or of the Holder's Corporate Name / Name Change Declaration, which requires verification of the Holder's identity, according to Annex IX attached hereto. The above declaration shall be submitted in electronic or paper form. The Registrar shall verify that the person submitting the Holder's Data Change Declaration or Holder's Corporate Name / Name Change Declaration is indeed the Domain Name Holder, either by checking information proving the Holder's identity (Tax Registry Number, police-issued ID card, etc.) or through the use of a state-of-the-art electronic signature based on a recognised certificate, and shall thereafter electronically forward within one (1) working day the Holder's Data Change Declaration to

the Registry, provided that the Holder of the [.gr] or [.ελ] Domain Name has paid the legal fees.

4. The Registry shall automatically update its files with the data of the [.gr] or [.ελ] Domain Name that have changed and shall proceed, as applicable, with the corresponding technical changes required in the Domain Name Servers
5. In any case the Registry shall inform the Holder, via e-mail sent to the electronic address declared in the Holder's Corporate Name / Name Change Declaration, with respect to the registration of the change in the Holder's name and/or corporate name in the Registry.
6. In case EETT ascertains, by operation of law or following a complaint made by a third party, that an act that runs contrary to the provisions hereof has been carried out in the Registry for the change of a Holder's name and/or corporate name, it shall be entitled to annul the act in question and revert the [.gr] or [.ελ] Domain Name to the Holder's data as these had been registered in the Registry prior to the registration of the corporate name / name change act in question.
7. The Holder shall be required to ensure that it informs both the Registrar and the Registry with respect to all the changes carried out either in the corporate name / name of the Holder or in any other registration data of the [.gr] or [.ελ] Domain Name, as described in the present Decision, and within one (1) month from the change in the data that were included in its declaration.

Article 13

Transfer of [.gr] or [.ελ] Domain Names and relevant provisions

1. A transfer may be carried out in the Registry in the following cases:
 - a. In case of a transfer declaration submitted through the Registrar to the Registry either:
 - By both the interested parties, i.e. the transferor (and Holder of the Domain Name up to the time of registration of the transfer declaration) and the transferee; or
 - By the transferee (the new person to which the exclusive right of use and reservation has been transferred), in accordance with paragraph 7 and 8 of part A of Article 10 hereof.

In such a case, the applicable procedure shall be as follows:

- i. The interested parties shall submit to the Registrar of the Holder of the Domain Name about to be transferred a Transfer Declaration according to Annex VIII attached hereto, accompanied by the legal fees provided for each time. The Transfer Declaration shall have to be clear, irrevocable and unconditional.
- ii. In case the Declaration pertains to a 2nd level [.gr] or [.ελ] Domain Name the Variable Field of which is the same as a geographical term included in Annex XIII attached hereto, or to a Common Use 3rd level [.gov.gr] Domain

Name, the transfer declaration shall be forwarded to the Registry at the latest within thirty (30) days prior to the expiry of the assignment period of the corresponding Domain Name.

iii. Any Transfer Declaration may be submitted in accordance with the present Regulation in paper or electronic form. The Declaration and the documents accompanying it shall be kept in a file by the Registrar.

iv. Upon submission of the declaration the Registrar shall check whether the requirements of item (i) of subparagraph (a) of paragraph 1 of this article are met. In addition, the Registrar shall verify that the Transferor is indeed the [.gr] or [.ελ] Domain Name Holder, by information proving the Holder's identity (Tax Registry Number, police-issued ID card, etc.) or through the use of a state-of-the-art electronic signature based on a recognised certificate. In case the above requirements are not met, the Registrar shall not forward the Declaration to the Registry.

v. The Registrar, within an exclusive time limit of three (3) days from the submission of the Transfer Declaration, shall forward the Declaration to the Registry, provided that the Holder of the [.gr] or [.ελ] Domain Name has paid the legal fees.

vi. In case of declarations for the transfer of an assigned 2nd level [.gr] or [.ελ] Domain Name the variable field of which is the same as a geographical term included in Annex XIII attached hereto, or of a Common Use 3rd level [.gov.gr] Domain Name, the Registry, within twenty (20) days from the reception of the Declaration, shall examine whether the transfer declaration should be rejected as void in accordance with Article 8 (g) and (k). In any of the above cases, the Transfer Declaration shall be considered void, while otherwise the Declaration shall be registered and the Registry shall automatically update its files with the data of the [.gr] or [.ελ] Domain Name that have changed.

vii. The Registry shall inform the interested parties via e-mail sent to the electronic addresses declared in the Transfer Declaration with respect to whether the Declaration is void or has been accepted.

b. In case of an EETT Decision that orders the revocation of the Holder's exclusive right to use and reserve a specific [.gr] or [.ελ] Domain Name and the transfer of such right to the Complainant / applicant for the transfer on the basis of any of the grounds referred to in Article 10 hereof. In such case the Complainant / applicant for the transfer shall also submit the information proving its identity according to the template of Annex XIV attached hereto. The cost of the Transfer Declaration is covered by the fee paid for the hearing taking place after the submission of a complaint to EETT according to par. 4 of Article 22 of this Regulation. The registrar of the domain name, within two working days from the notification of the relevant request by EETT, shall comply with the above decision and shall proceed immediately with the creation of a new personal code and any other action required for the completion of the transfer, without any charge on its part, informing EETT within the same period for the completion of the above actions.

c. In case of a court ruling or of a corresponding arbitration body decision enforceable in Greece, ordering the revocation of the Holder's exclusive right to use and reserve a specific [.gr] or [.ελ] Domain Name and the transfer of such right to a third party. In such case the third person in question shall be required to submit to EETT the relevant ruling / decision along with the information proving its identity according to the template of Annex XIV attached hereto. The cost of the Transfer Declaration shall be covered by the transferee and shall be deposited to EETT, in accordance with Annex IV.

The Registry shall inform the interested parties, via e-mail sent to the electronic addresses declared in the Registry, with respect to the registration of the transfer in its files.

2. Upon transfer, the transferor shall waive its right under this Regulation, which shall thereupon be acquired by the person to which it is transferred. Any transfer of an assigned [.gr] or [.ελ] Domain Name shall also entail at the same time the transfer of any form of the assigned Domain Name automatically reserved according to paragraphs 10, 11, 14 and 15 of Article 3 hereof, as well as of any reserved forms of the assigned [.gr] or [.ελ] Domain Name that were activated following a declaration by the Holder. Any reserved forms, activated or not, cannot be subject to a separate transfer on their own. In any case, an EETT Decision or court ruling that transfers a reserved form of a Domain Name shall transfer at the same time the main Domain Name and the entire group of all other reserved [.gr] or [.ελ] Domain Names.
3. In case the Transferor has allowed or tolerated the use of a [.gr] or [.ελ] Domain Name assigned to it and about to be transferred as a constituent of a 3rd or higher level [.gr] or [.ελ] Domain Name according to Article 5 hereof, it shall be required to inform the person to which it wishes to transfer the exclusive right of use of the [.gr] or [.ελ] Domain Names with respect to such use prior to the submission of the declaration according to paragraph 2 of this Article to the Registrar..
4. In case, following a declaration by the Holder, the transfer of a [.gr] or [.ελ] Domain Name is carried out in the Registry by an EETT Decision or court ruling or arbitration body decision enforceable in Greece, the new Holder, if it has accepted the use of the transferred [.gr] or [.ελ] Domain Name as a constituent of a 3rd or higher level [.gr] or [.ελ] Domain Name as allowed and tolerated by the transferor, it shall succeed the former Holder to its rights and obligations according to Article 5 hereof regarding the use of 3rd or higher level Domain Names without assignment.
5. EETT shall forbid the transfer and deletion of that [.gr] or [.ελ] Domain Name in the following cases:
 - an EETT Decision with respect to a summons to a hearing regarding the deletion or the transfer of a [.gr] or [.ελ] Domain Name, or
 - a notification of any pending legal procedure regarding the deletion or the transfer of a [.gr] or [.ελ] Domain Name, or

- announcement to EETT of any pending legal proceedings for the temporary deactivation of the [.gr] or [.ελ] Domain Name,

until:

- i. the issuance of an EETT Decision or court ruling, or a corresponding arbitration body decision enforceable in Greece, or
- ii. the expiry of the registration period, as long as this occurs prior to the completion of the relevant EETT hearing procedure or court proceedings.

6. A collateral or right in rem may be established on the [.gr] or [.ελ] Domain Name valid until the expiry of the domain name assignment.. The Domain Name may become an object of enforcement. The Domain Name is part of the estate of bankruptcy.

In order to register a pledge on a domain name in the Register of Domain Names, an application accompanied by the following documents is required:

- α) For natural persons, an application by one of the parties to the contract or by the attorney with the relevant authorisation of the applicant. Agreement for the pledge of a domain name signed by both parties with authentication of the signatories' signatures by a Public Authority and publication in the relevant competent and where required.
- b) For legal entities, an application with the full name and signature of the legal representative of the company with the company's stamp or an application of a lawyer with power of attorney and an authorization of the legal representative of the company. Domain name pledge agreement signed by both parties with authentication of the signatories' signatures by a Public Authority and publication in the relevant competent and where required. In particular, for AE, AEBE and ΕΠΕ and companies similar to them, a valid Official Gazette of Representation or a Notice of the EBEA or the G.E.MI. For OE, EU, IKE, ΜΕΠΕ, Federations, Associations, Cooperatives and similar, Articles of Association certified by the Court of First Instance, which will show the representation or a Notice of the EBEA or the G.E.MI.

Within one month from the submission of the application to EETT with all the above documents, provided that they are complete, the establishment of a pledge on a certain domain name shall be indicated by decision of the President of EETT in the Register of Domain Names.

The above registration shall be an element which shall be communicated together with the domain name data in accordance with the provisions of Article 21 hereof.

Article 14 **Change of Registrar**

1. At any time, the [.gr] or [.ελ] Domain Name Holder shall be entitled to change its Registrar. Any change of the Registrar of the assigned [.gr] or [.ελ] Domain

Name shall entail at the same time a corresponding change of the Registrar and

- a. any form of the assigned [.gr] or [.ελ] Domain Name automatically reserved according to paragraphs 10, 11, 14 and 15 of Article 3 hereof; and
- b. any reserved form of the assigned [.gr] or [.ελ] Domain Name activated following a relevant declaration by the Holder.

2. In such a case, the applicable procedure shall be as follows:

a. The Holder shall fill out and submit to the Registrar of its choice a declaration in paper or electronic form, requesting the transfer to such Registrar of all the data that pertain to the assignment of the specific [.gr] or [.ελ] Domain Name and entrusting with it all the activities of a Registrar regarding the specific [.gr.] or [.ελ] Domain Name, according to Annex I attached hereto ating the authorization code of the domain name

b. The new Registrar, if it is established that the person making the change is not the Registrar of the .gr or .ελ Domain Name or its legal representative, shall not forward the Notification to the Registry.

c. Thereafter, the new Registrar of the Domain Name shall issue and immediately dispatch to the [.gr] or [.ελ] Domain Name Holder a document proving the delivery of the declaration for the change of Registrar, which shall state at least the following information:

- (i) the corporate name of the Registrar of the Domain Name;
- (ii) the Registrar's Tax Registry Number, postal address, website address (URL) and e-mail address;
- (iii) the corporate name of the [.gr] or [.ελ] Domain Name Holder;
- (iv) the [.gr] or [.ελ] Domain Name Holder postal address and telephone number;
- (v) the [.gr] or [.ελ] Domain Name for which the declaration has been submitted;
- (vi) the exact date, hour and minute of delivery of the declaration for the change of Registrar of the Domain Name.

d. Subsequently, the new Registrar shall inform the Registry that a change of Registrar declaration has been filed, within three (3) working days of the submission of the change of Registrar declaration. The Registry shall electronically inform the old Registrar of the change of Registrar declaration and thereby complete the Registrar change process and the name shall be assigned to the new Registrar.e. The former Registrar, as soon as it is informed with respect to the submission of the declaration, shall cease using in paper or electronic form the data of the [.gr] or [.ελ] Domain Name Holder, unless it has obtained the Holder's prior consent to do so, according to the legislation in force.

3. The new Registrar shall be entitled to demand from the Registrant the payment of fees for the change of Registrar procedure.

4. A change of the Registrar of a .gr or .ελ Domain Name cannot be made until the completion of the registration procedure of the Domain Name and

throughout the period of time for which requests of the Holder of the .gr or .ελ Domain Name regarding the transfer of the Domain Name are pending..

5. A [.gr] or [.ελ] Domain Name renewal declaration can be submitted to a new Registrar without any requirement for a declaration for the change of Registrar with respect to Domain Names that lie passed the expiry date of their exclusive right of use but within fifteen (15) days from such expiry.
6. A declaration for the renewal of [.gr] or [.ελ] Domain Names that lie within the expiry date of their exclusive right of use shall be submitted to the Registrar managing the Domain Name or to a new Registrar in case a declaration for the change of Registrar is submitted prior to the renewal declaration.

Chapter VI

Article 15

Fees for the assignment and use of [.gr] or [.ελ] Domain Names

1. The Registrants shall be required to pay fees through the registrars to EETT in exchange for each chargeable act related to Domain Names: a) for the assignment, so as to cover the cost of their management by EETT, and b) for the use of the [.gr] or [.ελ] Domain Names. The maximum fees a Registrant may pay to a Registrar are determined in Annex IV.

The chargeable acts related to [.gr] or [.ελ] Domain Names are the following:

- assignment of a [.gr] or [.ελ] Domain Name;
 - activation of a reserved [.gr] or [.ελ] Domain Name;
 - transfer of an assigned or activated reserved [.gr] or [.ελ] Domain Name;
 - change of the corporate name / name of a Holder of an assigned or activated reserved [.gr] or [.ελ] Domain Name;
 - renewal of an assigned or activated reserved [.gr] or [.ελ] Domain Name;
 - [.gr] or [.ελ] Domain Name Registry Lock service.
2. The Registrar shall be entitled to demand the payment of fees by the Registrants even if no fee payment is required by EETT, for acts such as the registration of DNSSEC (DS Records) in the Registry.
 3. The registrars shall be required to pay EETT the fees set forth in Annex IV attached hereto. For declarations that are considered void, no fees shall be paid to EETT.
 4. The Registrars, subject to the penalty of deletion from the List of Registrars published by EETT, shall be exclusively responsible for the payment to EETT of the fees related to chargeable acts related to [.gr] or [.ελ] Domain Names, such as those set forth in paragraph 1 hereof.
 5. The fees that the Registrar shall demand from a Registrant, as well as the General Terms of Transactions that shall govern all acts related to [.gr] or [.ελ] Domain Names, shall have to be stated on the Registrars website.
 6. The fees shall have to be stated on a conspicuous and easily accessible location of the Registrars website so as to enable the competent EETT Services to carry out price checks at will.

7. The Registrars, subject to the penalty of deletion from the List of Registrars published by EETT, shall not be entitled to charge any Registrant with fees higher than those determined in Annex IV attached hereto.
8. By issuing a relevant Decision, EETT shall be entitled to readjust the amounts of the fees determined in Annex IV attached hereto. In case fees are increased, the period between the publication of the Decision in question and its entry in force may not be less than three (3) months.

CHAPTER VII Registrars

Article 16 Operation of the Registrars

1. The Registrars shall be persons that meet the requirements set forth from time to time by EETT and referred to in Annex II attached hereto, as applicable each time.
2. Any persons that meet the requirements of Annex II attached hereto and wish to become Registrars shall proceed with a simple notice sent to EETT. A template notice is included in Annex VII attached hereto. The Notice shall be accompanied by a Solemn Statement of the person submitting it or its legal representative in case of a legal person that they fully accept all the obligations and meet all the EETT criteria stemming from this Regulation. The notice shall be submitted exclusively through the Electronic Application Submission System for Electronic Communication Providers. In the course of this electronic submission the Registrar shall be required to also send electronically to EETT all the documents that need to be attached to the declaration as per case. In case the Registrars notice sent is incomplete, the person submitting it shall not be registered in the EETT List of Registrars. To access the Electronic Application Submission System for Electronic Communication Providers the applicant shall submit an Administrators Declaration according to the provisions of a specific relevant EETT Decision. The requirements to be set forth by the aforementioned Decision shall be published on the relevant location of the EETT website.
3. EETT shall register every complete Notice in the List of Registrars it keeps, and shall immediately publish the Registrars data in the Registry and on its websites, according to Annex XII attached hereto. Upon publication as described above, the person submitting the notice shall be entitled to operate as a Registrar.
4. In case of any change in the data declared in the notice submitted to EETT, the Registrar shall be required to inform EETT in this respect through the Electronic Application Submission System for Electronic Communication Providers within ten (10) days from the change.
5. EETT may disclose any documents at the electronic address stated in the Registry.
6. By Decision of the President, EETT may issue a Policy for the Good Use of the Registry Systems.

Article 17
Obligations of the Registrars

1. The relationships of the Registrars with the applicants for the assignment of Domain Names and other Registrars shall be governed by the principles of good faith and good morals, as well as by the overall spirit of this Regulation and the applicable legislation on competition and on consumer protection and personal data protection.
2. Registrars communicate with the Registry regarding acts related to Domain Names through a web-based application provided by the Registry.
3. This application shall enable the identification of both the Registrar and the Registry and shall ensure non alteration of any information shared between the Registrar and the Registry through the use of appropriate software applications and security methods.
4. Registrars are required to activate their connection to the above application within three (3) months from the publication of their data in the Registry. If the connection to the Registry is not activated within three (3) months, EETT shall immediately proceed to the deletion of the Registrant, without conducting a hearing, by decision of the President or Vice President of the Electronic Communications Sector
5. 4. .In any case, without conducting a hearing, if brought to EETT' s knowledge any official documents and information concerning the decommissioning of Registrars, EETT may on its own initiative without further notice delete the Registrars from the respective Registry. In this case, EETT informs the Registrants via e-mail address submitted with respect to the deletion of their Registrant.
6. The Registrars shall be required to abide by the templates of Annexes V to XI attached hereto, as well as Annex XIV, XVII and XVIII to XX attached hereto, and particularly to demand from Registrants to submit the relevant solemn statements described therein, with the content specified therein.
7. The Registrars shall be required to keep a file containing all documents (written or electronic) that Registrants submit to them, the relevant fee payment receipts, as well as any other document sent by the Registry or EETT to the Registrar and related to the corresponding [.gr] or [.ελ] Domain Name. The files are kept by the Registrar for the entire period that he manages the domain name and for six (6) months after the expiration of the Domain Name, or the transfer of the domain name to another Registrar. EETT shall be entitled to request at any time from the Registrars any of the documents that they keep and are related to [.gr] or [.ελ] Domain Names. The Registrars shall forward the documents requested to EETT within twenty four (24) hours.
8. To the extent possible, the Registrars files shall also be kept in electronic form using an appropriately structured database. Upon a relevant request by EETT, the Registrar shall be required to extract these data from the database in such appropriate electronic format as shall be determined by EETT.
9. The Registrars shall be required to proceed to all the actions necessary in accordance with this Regulation, within the time limits set forth in this

Regulation. Any time limits for the submission of declarations for chargeable acts as specified in accordance with this Regulation shall start with the payment of the legal fees specified in Annex IV attached hereto by the Registrant to the Registrar.

10. The Registrars shall be required to inform the Registrants / Holders of [.gr] or [.ελ] Domain Names with respect to any information made known to them by the Registry or EETT and related to the corresponding [.gr] or [.ελ] Domain Name. The Registrars shall notify the Holders with respect to the expiry of their [.gr] or [.ελ] Domain Names at least two (2) months prior to the expiry, via e-mail sent to the electronic address declared in the Registration Declaration.
11. The Registrars shall be required to have an active website listing their contact details in full and reference to the Registry Number of EETT, as well as a consumer service line that shall operate on working days from 9:00 am to 4:00 pm.
12. All Registrars shall ensure that they have appropriate mechanisms and sufficient human resources employed in the service of their Registrants, so that a Registrant calling the Registrars support centre is not kept waiting for an excessively long time, which advisably should not exceed five (5) minutes.
13. Registrants should not exceed the limit of four hundred (400) registration requests, for domain names whether available or not, submitted to system between 23:30 to 01:00 UTC. It should be noted that this number pertains to the total number of registration requests that a Registrant can submit and not the registration requests per domain name. In the event of the limit being exceeded, the Registry shall not take delivery of the registration request. The Registry notifies the Registrant by email by the as soon as the maximum limit is reached. The Registrant can submit the registration requests for new names once more after 01:00 UTC. All other acts (renewals, activation of reserved domain names, etc.) are not affected and are permitted to the Registrant. The above limitation can be adjusted following a Decision of EETT' s President (Policy for the Good Use of the Registry Systems)
14. The Registrars shall be required to proceed, upon request, to any action necessary in accordance with this Regulation in order to serve the Registrants. The Registrars shall abstain from any practices that prevent Registrants from freely contacting any Registrar they wish or replacing the Registrar they currently use.
15. The Registrars must submit to any [.gr] or [.ελ] Domain Name Holder they manage their registration data, according to the Registry data base, as they stand at the time their notification is requested
16. EETT charges an annual fee of one hundred euro (€100) to all Registrars, irrespective of the number of Domain Names they manage. This fee shall be automatically entered as a negative sum in the Registry subsystem on the 20th of January, to all Registrars in the Registry. The Registrars shall be required to pay to EETT the legal Domain Name fees set by EETT according to Annex IV attached hereto.
17. For the payment of the legal fees, the Registrar shall be required to use a subsystem of the Registry. Via the system, the Registrar shall pay the amount of money they wish so they are able to carry out the chargeable acts in the

Registry. This sum may be used for carrying out chargeable acts at any time, without any time limitations.

18. The sum decreases per chargeable act. The Registrar shall have the right to carry out chargeable acts in the Registry while having no amount of money for a period of five (5) calendar days. These acts shall be calculated as negative sums. Upon expiry of the above period, the Registrars ability to carry out chargeable acts in the Registry shall be discontinued on the next working day at the time announced by the Registry. To regain the right to carry out chargeable acts, the Registrar shall have to pay to EETT as a minimum an amount of money equal to the negative sum they have spent.
19. The above period of five (5) calendar days may be readjusted by a EETT Decision.
20. EETT shall issue and dispatch to the Registrars on a monthly basis a bill of payable fees, which shall refer to the amount of money they have spent and the negative sum that may exist in the system at the time the bill of payable fees is created, and not to the total amount of money deposited by the Registrar.
21. The Registrar shall be required to immediately pay the fees within twenty (20) days. In case that, due to amounts owed, a Registrar's capability to carry out chargeable acts in the Registry has been discontinued for more than five (5) consecutive months, EETT notifies the Registrar by e-mail that if they do not pay their debts within six (6) months from the date the capability to carry out chargeable acts in the Registry was discontinued, EETT shall delete them from the respective Registry. EETT may delete a Registrar by Decision of the President, without conducting a Hearing. In case the due amount is over one hundred euro (€100), EETT shall proceed to collect it in accordance with the Code for the Collection of Public Revenues. A debt less than or equal to one hundred euros (100€) is cancelled. A registrant who has been deleted due to a debt of less than or equal to one hundred euros (€100) may resubmit a registrant notification after five years. If a notification is submitted before the end of the five-year period, the registrant must pay the debt for which he was deleted.
22. The Registrars shall be required to have (at least two) Domain Name Servers of their own and to ensure the proper function of these servers for the provision of services to the Registrants upon request, as well as for their network connection with the Internet Domain Name System.
23. The Registrars shall be required to have the necessary software and hardware infrastructure so as to be able to communicate with the Registry using at least one of the methods made available by the Registry, in order to serve the Registrants' declarations. These methods shall be published on the Registry website.
24. Upon the Registrants' request, Registrars are obliged to send - through an application provided by the Registry - the assignment details with respect to the Domain Name to the email address declared by the Registrant. They are also obliged to take the required actions for the process of providing authorization codes for Domain Names to registrants when requested.

25. The Registrar shall not be entitled to proceed with any act related to a [.gr] or [.ελ] Domain Name without the prior consent of the [.gr] or [.ελ] Domain Name Holder. This consent shall have to be obtained in paper or electronic form and kept in the Registrar's respective file.
26. The Registrar shall have the right to act as a Registrant as well, but only with respect to [.gr] or [.ελ] Domain Names intended for its own use. In any case, the Registrar must not abuse this right by seeking the assignment of an unjustifiably large number of [.gr] or [.ελ] Domain Names to itself.
27. The Registrars shall not refuse without reasonable cause the provision of their services in accordance with this Regulation.
28. The Registrars shall allow EETT and/or any persons appointed from time to time by EETT to visit the Registrars' facilities and check their compliance with their obligations. Also, the Registrars shall supply to EETT any information required related to their operation as Registrars.
29. During the provision of their services, the Registrars must comply with all their obligations under this Regulation.
30. The Registrars shall be required to only use the Registry in order to comply with their obligations under this Regulation. Furthermore, they shall be exclusively responsible for the proper registration of the Registrants' data in the Registry, while any cost incurred for the correction of incorrectly registered data shall be covered by the Registrar.
31. In case a Registrar wishes to cease operating as such, it shall be required to inform in writing, at least thirty (30) working days in advance, the Registry, EETT and its Registrants, so that the latter can be promptly transferred to another Registrar. Also, the Registrar shall be required to proceed to any action necessary for the transfer of the [.gr] or [.ελ] Domain Names. EETT shall duly publish this fact on its website, and shall invite all concerned Holders and Registrants to choose a new Registrar. At the latest upon expiry of the above period of ninety (90) days, EETT shall deactivate the Registrar's access to the Registry and shall delete the Registrar from the List of Registrars published on its website.
32. In case a Registrar comes under liquidation or receivership, or is declared bankrupt, it shall be required to immediately declare its termination of operations to EETT, submitting the relevant documents proving this fact. EETT shall duly publish this fact on its website, shall invite all concerned Holders and Registrants to choose a new Registrar, shall deactivate the Registrar's access to the Registry, and shall delete the Registrar from the List of Registrars published on its website.
33. In the cases of paragraphs 31 and 32 of this Article, upon the Registrars deletion and deactivation, any Domain Names assigned to Registrants that have not ensured their transfer to a new Registrar shall remain valid until their expiry, but no act shall be carried out in relation to them.
34. In case a Registrar of Domain Names also operates as an Internet Service Provider (ISP), the Resolvers in the access network must not be Authoritative Domain Name Servers with respect to zone files of other Domain Names,

excluding any cases of Domain Names in which the Internet Service Provider (ISP) is the Holder / person entitled to them.

35. Limitedly, in the case of incorrect submission of a Registrant's data by the Registrar, their correction following the assignment of the [.gr] or [.ελ] Domain Name shall be allowed upon submission of a Holder's Corporate Name / Name Change Declaration. In case of submission of such a declaration, the Registrar shall be required to have informed the [.gr] or [.ελ] Domain Name Holder in advance. The act shall be chargeable according to the provisions hereof regarding the declarations for the change of the Holder's corporate name / name.
36. To the extent that the Registrants act as processors under this Regulation, they apply appropriate technical and organizational measures, in such a way that the processing meets the requirements of the GDPR and ensures the protection of the rights of the data subject.
37. The processing by the processor is governed by this Regulation, which binds the processor in relation to the controller, in particular in terms of its provisions, which determine the object and duration of the processing, the nature and purpose of the processing , the type of personal data and the categories of data subjects.
38. The processor: a) processes the personal data only on the basis of recorded instructions of the controller, b) ensures that the persons authorized to process the personal data have undertaken an obligation of confidentiality or are under the appropriate regulatory obligation of confidentiality, c) take all the required measures pursuant to Article 32 of the GDPR, d) take into account the nature of the processing and assist the controller with appropriate technical and organizational measures, to the extent possible, to fulfill the controller's obligation to respond to requests to exercise the data subject's rights provided for in chapter III of the GDPR, f) assist the data controller in ensuring compliance with the obligations arising from articles 32 to 36 of the GDPR, taking into account the nature of the processing and the information available to the processor, g) makes available to the data controller any necessary information to prove compliance with the obligations established in Article 28 of the GDPR and allows and facilitates the controls, including inspections, carried out by the data controller processing or by another controller appointed by the controller. The processor shall immediately inform the controller if, in its opinion, any order violates the GDPR or other EU or national data protection provisions.
39. Without prejudice to Articles 82, 83 and 84 of the GDPR, if the processor determines the purposes and means of the processing in violation of this Regulation and the GDPR, the processor is considered the controller for the specific processing.
40. As long as the Registrant as the processor is not established in the EU or within the European Economic Area, it appoints in writing a representative in Greece in the event that the processing activities are related to the provision of services to the subjects of personal data in the Union.

Article 18
Deletion of Registrars and other administrative sanctions

In case the Registrar does not abide by the provisions hereof, EETT, after holding a hearing, may under Article 77, paragraph 3 of Law 4070/2013, impose a special reasoned decision of one or more of the following sanctions:

a. Registrar Deletion

In case the Registrar breaches any of its obligations under this Regulation, EETT shall be entitled to proceed with the deletion of this Registrar from the List of Registrars. In case of issuance of a Decision that orders the deletion of the Registrar, EETT shall deactivate the Registrar's access to the Registry, shall delete the Registrar from the List of Registrars published on its website, shall duly publish this fact on its website, and shall invite all the Holders of [.gr] or [.ελ] Domain Names managed by the Registrar in question to choose a new Registrar. By relevant Decision, EETT shall be entitled not to accept Registrars notices submitted by persons that have earlier been deleted as Registrars by EETT Decision, in accordance with this Regulation.

b. Fine according to the provisions in force.

c. Recommendation.

CHAPTER VIII
DOMAIN NAME REGISTRY

Article 19
Obligations of the Registry

1. The Registry shall act based on the provisions agreed upon and approved by EETT, as well as according to the principles of non-discrimination and assurance of transparency and objectivity.
2. The Registry shall inform the Registrant, via e-mail sent to the electronic address declared in the latter's declaration, with respect to whether:
 - a. the Registration Declaration is void or the [.gr] or [.ελ] Domain Name has been assigned;
 - b. the Transfer Declaration for the [.gr] or [.ελ] Domain Name is void or has been registered in the Registry;
 - c. The [.gr] or [.ελ] Domain Name Holder Corporate Name / Name Change Declaration was registered in the Registry.
 - d. the Declaration for the Activation of a reserved [.gr] or [.ελ] Domain Name was registered in the Registry;
 - e. the Declaration for the Renewal of a [.gr] or [.ελ] Domain Name was registered in the Registry;
 - f. the Declaration for the Deletion of a [.gr] or [.ελ] Domain Name was registered in the Registry;
 - g. the Declaration for the Change of a [.gr] or [.ελ] Domain Name Registrant was registered in the Registry;

- h. the Declaration for the Activation of the Increased Security Service (.Registry Lock) for a [.gr] or [.ελ] Domain Name was registered in the Registry;
 - i. the Declaration for the deactivation of the Increased Security Service (Registry Lock) for a [.gr] or [.ελ] Domain Name was registered in the Registry;
 - j. the Registry Lock was used for a [.gr] or [.ελ] Domain Name.
3. No update shall be provided for Registration Declarations that have been rejected without assignment of a reference number in accordance with par.11 and 14 of Article 7.
 4. The Registry shall activate or deactivate, temporarily or definitively, the [.gr] or [.ελ] Domain Names whenever and as provided for in accordance with this Regulation and in the way provided for by EETT from time to time.
 5. The Registry shall keep files of the [.gr] or [.ελ] Domain Names, which shall include all data related to the activation / assignment of the [.gr] or [.ελ] Domain Names, such as the time priority order of the Registration Declarations, the identity of the Registrants / Holders, the time of assignment, or any data related to other acts provided for in accordance with this Regulation, as well as data related to the identity of the Registrar mediating the act in question.
The Registry files shall be kept at least in electronic form, using an appropriately structured database. Upon a relevant request by EETT, the Registry shall be required to extract this data from the data base in such appropriate electronic format as shall be determined by EETT.
 6. The Registry files shall be made available by the Registry in an on-line form, so as to ensure the access of EETT thereto at any time. The means of access shall be commonly agreed upon between the Registry and EETT.
 7. The Registry shall be responsible for the proper function, management and technical support of all the Domain Name Servers necessary for the [.gr] or [.ελ] domain, whether located in Greece or not, as well as for the systems constant updating and modernisation, so as to guarantee the satisfaction of all future needs of the [.gr] or [.ελ] domain or of any other domain that may be given to the Greek State.
 8. Upon a relevant request by EETT, the Registry shall be required to extract the data kept in the zone files of the primary Domain Name Server for the [.gr] and/or [.ελ] domain in such appropriate electronic form as shall be determined by EETT.
 9. The Registry shall undertake to set up, manage and operate a website, so as to provide Internet users with information on the procedures related to the [.gr] or [.ελ] Domain Names as well as with a [.gr] or [.ελ] Domain Name public search service.
 10. The Registry shall be entitled to supply to every Registrant / Holder of a [.gr] or [.ελ] Domain Name the registration data thereof according to the Registry as these stand at the specific time their notification is requested using the authorisation code of the specific Domain Name.

11. The Registry shall not act as a Registrar, unless otherwise determined in this Regulation. EETT reserves the right to carry out in the Registry acts that pertain to any mandatory change of corporate name / name or transfer or deletion or temporary deactivations / restrictions that result from the implementation of any ruling or decision issued by a court, an arbitration body or EETT itself. In order to carry out these acts, EETT shall be entitled to demand from the Holders payment of the corresponding fees.
12. EETT may keep the Registry on its own or assign its management to any other legal person through a tender procedure.
13. The Registry shall be entitled to immediately discontinue the access of any Registrar that creates problems to the Registry systems and services (cases of abuse of the Whois service, DoS / DDoS, abuse of Registry resources, incorrect registration of [.gr] or [.ελ] Domain Name data, Code Injections, and any other case that may endanger the smooth operation of the Registry systems and services).
14. The Registry shall be entitled to set restrictions on the number of parallel connections allowed per Registrar, on the number of acts carried out through the Extensible Provisioning Protocol (EPP), and in general on any other parameter of the system in order to ensure its smooth operation.
15. In case EETT has assigned the Registry management to another legal person (Registry), all data kept by the Registry shall belong to EETT and shall be made available to it in electronic format upon a relevant request by EETT, and in any case upon termination of the Registry management assignment to the specific legal person by EETT, irrespective of the grounds on which such termination occurs.
16. The Registry shall be entitled to provide additional security services to the Holders of [.gr] or [.ελ] Domain Names.
17. Any temporary discontinuation of the Registrars access to the Registry for reasons pertaining to the security of the Registry data, the assurance of the Registry smooth operation or any abuse of access rights on the part of the Registrar, shall not generate any right of the Registrar to indemnification for any direct or indirect losses.
18. The Registrars access to the Registry shall not be guaranteed throughout the day (24 hours), as it shall be subject to technical restrictions that may be causing delays and interruptions, such as on-line attacks and/or temporary network failures.

Article 20

Increased Security Service Domain Name

1. Upon the initial activation of the Increased Security Service Domain Name (and any activated reserved forms thereof), changes to its data or other acts (change and/or deletion of subsidiary servers, change of DNSSEC technology DS records, change of use / change of corporate name of the

Holder, change of Holder data, activation of the reserved form of the Domain Name, deletion of a Domain Name or of an activated reserved form thereof) are prohibited

2. The above actions can be carried out by the Registrant exclusively in cooperation with the Domain Name Holder and only after the Registrant has contacted the Registry. The communication of the Holder, Registrant and Registry is verified by combinatory use of alphanumeric keys that are sent by the Registry separately to the interested parties. The Domain Name Holder must prior to the initial activation of the Registry lock have confirmed, in cooperation with his Registrant, his data declared with the Registry, especially his declared e-mail
3. Specifically, if the need arises for certain of the excluded actions to be carried out, the Domain Name Registrant must submit the relevant request electronically to the Registry system. Thereafter, the Registry sends two (2) separate codes to: a) the Domain Name Holder at his contact email or as otherwise specified and b) to the Domain Name Registrant. In order for the request to be approved, the Registrant contacts the Registry personnel.
4. Communication between Registrant - Registry requires the prior notification of the code received by the Domain Name holder to the Registrant and which permits the approval of the change in the status of the Domain Name and / or related items (Holder contact person, subsidiary name servers). This code is combined with the corresponding code received by the Registrant for the specific act. The communication is carried out according to a predetermined method and constitutes a prerequisite for the Domain Name and/or its related items to be given a status that permits changes to their data, for the requested time period (window for changes).
5. Communication with the Registry for the creation of a window for changes shall take place exclusively during the Registry operating hours, but changes to Domain Name data can be carried out on a 24-hour basis. The Holder and the Registrant must ensure the timely submission of activation requests and use of the service. Changes to the Domain Name data shall be performed within the window for changes with the usual procedures set forth in the previous articles hereof.
6. The maximum permitted window for changes shall be 24 hours. Every window for changes shall expire at the time designated by the Holder or upon the request sent electronically by the Holder before its designated expiry. More extensive time periods for changes are feasible with the temporary deactivation of the Registry Lock service. No fee is required for its reactivation during the period that it remains in force.
7. The duration of the service shall be set for two (2) years from the date of submission of its activation declaration or until the expiry of the right to exclusively use the specific Domain Name, if this occurs first. The service is renewed automatically, unless otherwise stated in its initial activation statement, in order to ensure operation without interruptions. The above

choice could be modified at any time during the service usage period. Activation, as well as the renewal of the service duration constitute chargeable acts and cannot be revoked. The Holder is charged the full fee during the activation / renewal of the service and is not subject to any additional charges

8. Acts prohibited during the use of this service do not include change of Registrant and renewal of the Domain Name.
9. The activation declaration, the deactivation declaration and the declaration for the use of Increased security service are submitted to the Domain Name Holder by its Registrant, in accordance with Annexes XVIII, XIX and XX respectively.

CHAPTER IX DATA PROTECTION

Article 21 Data protection

1. The personal data of the natural persons Domain Name Holders are collected and processed exclusively for the purposes of fulfilling the obligations of the registrants. The Registrars collect personal data of the persons who submit declarations of registration of Domain Names ending in .gr or .el or declarations of other actions on Domain Names ending in .gr or .el only to the extent that this is necessary for the processing of these Declarations. The collection or processing of personal data for other purposes is prohibited, without the consent of the person concerned, in accordance with the current legislation.
2. The personal data of natural persons that are Domain Name Holders shall neither be published nor disclosed to any third parties.
3. As an exception to the above, in any event EETT shall disclose the data of a [.gr] or [.ελ] Domain Name Holder in case it is required by law for purposes related to the prevention, investigation, detection or prosecution of criminal offenses upon request by the competent authorities..
4. The personal data of legal persons that are Domain Name Holders shall be disclosed to third parties, by EETT, following their request.
5. Following the issuance of a relevant EETT Decision, the Registrars may be allowed to communicate to third parties any registration data of [.gr] or [.ελ] Domain Name Holders that are legal persons.
6. Following the issuance of a relevant EETT Decision, the Registrars may be allowed to communicate to third parties that submit to them a relevant request, the personal data of natural persons that are Holders of [.gr] or [.ελ] Domain Names they manage and have given consent to the disclosure thereof.

7. Personal data are registered and kept in the Registry of Domain Names for the purposes of processing in the context of this Regulation. These data are kept for the establishment, exercise or support of legal claims and for archiving purposes in the public interest and are not deleted.
8. Registrants notify the personal data of legal and natural persons that are [.gr] or [.ελ] Domain Name Holders under their management, following the request of the competent public auditing authority.
9. Without prejudice to the provisions of the legislation in force regarding the protection of personal data, the Registrars shall only collect personal data of the persons submitting [.gr] or [.ελ] Domain Name registration declarations, or declarations for other acts related to [.gr] or [.ελ] Domain Names, to the extent necessary for processing these declarations. The collection or processing of personal data for other purposes without the concerned persons consent shall be prohibited according to the legislation in force.

CHAPTER X SUPERVISION

Article 22 **Supervision and other provisions**

1. EETT shall supervise and control the implementation of this Regulation.
2. The Registry and the Registrars shall be required to supply to EETT any relevant information considered necessary by EETT for the management of the assignment of Internet domain names or for statistical purposes.
3. The Registry shall be required to prepare and submit to EETT a Quarterly Activity Report, the content of which shall include all qualitative and quantitative data related to the management of the [.gr] or [.ελ] domain names and shall be as determined by EETT from time to time.
4. For a Hearing to be held under the EETT Hearings Regulation following a complaint for any breach of this Regulation, the Complainant shall be required to pay a fee, of two hundred euro (€200) if it is a natural person or four hundred euro(€400) if it is a legal person, which shall be deposited into a bank account of EETT published on its website. For the admissibility of the complaint, when submitting it to EETT, it must be accompanied by the deposit of the above fee, which is still valid in the event of universal or special succession to the person of the complainant after the submission of the complaint. Along with the complaint, the legalizing documents of the complainant are also filed. Also, any power of attorney document is filed in case the complaint is submitted by an attorney, whether the complainant is a natural person or a legal entity. All documents are either originals or legally certified and bear the notation of The Hague (apostille) with an attached official translation of them in the Greek language and are submitted to EETT in an electronically printable format of fixed duration.
5. EETT shall be entitled to proceed with the publication of any information necessary for the fulfilment of its tasks, respecting the principles of transparency, proportionality and professional secrecy.

6. EETT may carry out promotional activities to advertise [.gr] or [.ελ] domain names and stimulate consumer interest.

CHAPTER XI FINAL AND TRANSITORY PROVISIONS

Article 23 Transitory Provisions

1. 1. From the entry into force of the new Codified Regulation to be issued, the Decision of EETT AP 843/2/1.3.18 "Regulation on the Management and Assignment of Domain Names ending in .gr or .el" (B' 973) is repealed), as amended. This Regulation shall govern all [.gr] Domain Names assigned prior to its entry in force, regardless of the procedure followed for their assignment.
2. Complaints that were submitted to EETT prior to the entry into force of this Regulation and are still pending shall be processed according to the provisions applicable prior to the entry into force of this Regulation.

Article 24 Entry into force

The Decision shall enter into force three (3) months from its publication in the Government Gazette, except for article 11, the validity of which begins with the publication of this decision in the Government Gazette.

Article 25

Annexes

The following Annexes constitute integral parts of this Regulation:

Annex I

Characteristics of the Names Servers used for [.gr]or [.ελ] Domain Names

1. Each [.gr] or [.ελ] Domain Name in operation should be served at least by two (2) Name Servers. Said servers shall return NS Records with all relevant information for all the Name Servers serving the [.gr] or [.ελ] Domain Name in question.
2. The Name Servers shall return Mail Exchange (MX) records for each [.gr] or [.ελ]Domain Name they serve. The e-mail servers associated with said records and used by the [.gr] or [.ελ] Domain Name Holder have been configured so as to accept e-mail messages sent to the corresponding Domain Name.
3. The Name Servers shall return Start of Authority (SOA) type records for each [.gr] or [.ελ] Domain Name they serve, which shall be compatible with the following specifications :
 - a. The "MNAME" field includes the name of the primary Name Server for the [.gr] or [.ελ] Domain Name;
 - b. The "RNAME" field includes a functioning e-mail address;
 - c. The serial numbers and timers follow the principles of the Domain Name System so as to prevent any material differences from them.

Annex II

Criteria to be met by Registrars

1. Registrars shall be either natural or legal persons of any form.
2. Registrars must have the building facilities, human resources and information systems infrastructure that shall allow them to fulfil their obligations as Registrars based on this Regulation in an appropriate fashion.
3. Registrars are required:
 - (a) to have and ensure the proper operation of their own Name Servers (at least two) in order to provide services to Registrants, if the Registrants wish so, as well as to ensure the Internet connection of the said servers with the Domain Name System;
 - (b) to be equipped with and ensure the proper operation of the hardware and software used for the maintenance of the archive including the data of the Registrants they serve;
 - (c) to have the corresponding human resources, in proportion to the number of Registrants / Holders they expect to serve, so as to ensure the smooth processing and checking of the assignment declarations and other acts on Domain Names within the deadlines provided for in the Regulation.
4. EETT is entitled to publish Ethics Regulations to be complied with by Registrars or to determine the minimum necessary infrastructure requirements, in compliance with the provisions set forth in the Greek and EU legislation. Furthermore, EETT may by virtue of a Decision, determine a procedure of voluntary accreditation for Registrars.

Annex III

Common Use 2nd level [.gr] Domain Names

The following 2nd level Domain Names are made available for the assignment of 3rd level Domain Names:

- a. com.gr
- b. edu.gr
- c. net.gr
- d. org.gr
- e. gov.gr.

The following shall apply:

- A [com.gr] Domain Name shall only be assigned to those engaging in commercial activities.
- An [edu.gr] Domain Name shall only be assigned to educational organizations.
- A [net.gr] Domain Name shall only be assigned to Internet Service Providers (ISPs) and network providers.
- An [org.gr] Domain Name shall only be assigned to non-profit organizations.
- A [gov.gr] Domain Name shall only be assigned to governmental organizations.

Annex IV

Domain Name Fees

1. Domain Name Chargeable Act Fees
