

Dear EETT

After reading sections 9-14 in the bidding document, we would like if you can confirm the compliance of items in the bidding document. There are two minor issues that need to be communicated with you.

Section 9: Confirm the requirements on racks. Normally this equipment has 1U size, here is 3U request.

5	Rack Mounted	3U with Rack Mount Kit	FC	1U
---	--------------	------------------------	----	----

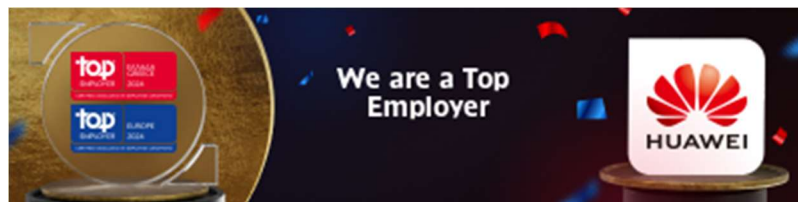

In section 10, whether this refers to the link bandwidth.

5	7.2	Bandwidth: (Gbps, Full Duplex) Refers to the interconnection channel range between core switches.	≥400	what is this means?
---	-----	---	------	---------------------

Kind Regards,

Yao W.
