Short bio

Dimitrios Christopoulos received the electrical and computer engineering diploma from the National Technical University of Athens (NTUA), Athens, Greece, in 2010 and the Ph.D. diploma from University of Luxembourg, in 2014. Early 2016, he joined the Technical Labs of Newtec, in Belgium. Currently, Dr. Christopoulos is serving as scientific officer for satellite communications and integrated applications in the Hellenic Space Center and as advisor to the Secretary General of Telecommunications and Posts, Ministry of Digital Governance. Dr. Christopoulos is a member of Greece's national delegation on satcom matters to ESA (Joint Communications Board) and the European Commission (DG DEFIS and DG CONNECT, EUSPA).
