

Name & Organisation

Jorge Ciccorossi - ITU

Presentation title

Latest ITU Regulations and Actions to protect the Radio Navigation Satellite Service (RNSS) from Harmful Interference

Abstract

Presenting the latest developments and actions taken by ITU in preventing and mitigating harmful interference to RNSS, including Joint Efforts with other UN Agencies and recent cases treated by the Radio Regulations Board.

Short bio

With over 25 years of experience in satellite communications and regulations at international level, Mr Ciccorossi is the Head of the Space Strategy and Sustainability Division at the ITU Radiocommunications Bureau. His team is dedicated to monitor and ensure the effective and precise deployment of satellites in geostationary and non geostationary orbits in conformity with the Radio Regulations, as well as the treatment of cases of harmful interference affecting space services. Mr. Ciccorossi advises ITU Member States and Sectors Members on technical regulatory matters of space services. Since 2003 he has represented the Bureau at WRCs and several other international fora.
